

CITY OF LODI

PUBLIC WORKS DEPARTMENT

COUNCIL COMMUNICATION

TO: City Council
FROM: City Manager
MEETING DATE: September 19, 1990
AGENDA TITLE: Plans and Specifications and Advertisement for Bids for Well Drilling, Well 11-R, 824 East Turner Road

Project Data
Originally Budgeted: 1989/90
Budgeted Fund: Water Capital Outlay
Total Project Estimate: \$123,000
(this phase)
Bid Opening Date: 10/17/90

RECOMMENDED ACTION: That the City Council approve the plans and specifications for the above project and authorize advertising for bids.

BACKGROUND INFORMATION: This well site is located east of Highway 99 and the Casa de Lodi Mobile Home Park. A preliminary site plan is attached.

The project consists of drilling a production water well. The test well results have shown that sufficient clean water bearing strata are present to recommend the completion of this well to a depth of 465 feet. No DBCP was found in any of the strata. The drought and higher material costs indicate that the well may cost 10% to 15% more than the last well, drilled in May of 1989.

Jack L. Ronsko
Public Works Director
